**Find out how to manage a home-based business from this Kentucky company offering opportunities for selling and marketing telecommunications products.**

Fortune Hi-Tech Marketing, Inc., headquartered in Lexington, KY., has erupted onto the technology communications scene. The company was founded by multimillionaire, Mr. Paul Orberson. Predictions are: this 100% debt free company will explode, exceeding all of the revenues previously generated by any other network marketing company.

Fortune Hi-Tech Marketing, Inc., headquartered in Lexington, KY., has erupted onto the technology communications scene. The company was founded by multimillionaire, Mr. Paul Orberson. Predictions are: this 100% debt free company will explode, exceeding all of the revenues previously generated by any other network marketing company.

Their unique association with the 98.6 billion dollar WorldCom company and other companies such as Skytel, DishNet, Cingular and UUNet, along with their superior relationship marketing structure, will make them a powerhouse in the technology products market.

Mr. Paul Orberson, President and CEO, is one of the most successful individuals ever to have participated in the network marketing industry. He earned more money as a representative, in a shorter period of time, than anyone before in the industry. Paul founded Fortune Hi-Tech Marketing, Inc. specifically as a vehicle to help others achieve their goals and dreams and become financially independent. Fortune offers anyone a great opportunity to start a home based business in the very lucrative communications field.

So what does this have to do with me, you ask?

Specifically, Fortune Hi-Tech Marketing, Inc. is in it's infancy in many places across the country. What this means to you is that anyone with some vision and desire has time, right now, to position themselves on the front end of the phenomenal growth that will surely come in the next 1-3 years. This will, in turn, allow these entrepreneurs the opportunity to build businesses for themselves and their families, generating a huge residual or re-generating income that will continue on for many years. Furthermore, creating a serious diversification in one's portfolio, not reliant on traditional business models or the local economic up and down swings associated with those traditional businesses or economies, can be achieved.

More importantly, the time is now to get involved with this great company and position yourself and your family to capitalize on the growth of this company and the financial prosperity they will obviously generate, both locally and nationally.
